Installation of Woocommerce Custom Tab

Installation

1. Install Word Press from http://codex.wordpress.org/Installing_WordPress.
2. **Upload via FTP:** - Unzip the zip archive you have downloaded on your computer. Upload the folder to your server via FTP into the directory plugins on your Wordpress installation (wp-content → plugins).
3. **Upload via Word press Admin:** - Go to your WordPress admin panel, and then to Plugins. Click on "Add New" and then upload the zip file of the plugin using the "Upload Plugin" button you can find on top of the screen.
4. For the plugin to work as it should, WooCommerce plugin has to be installed and enabled.

Activation

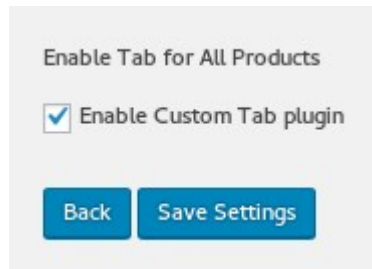

Once you have uploaded the plugin, activate your plugin in Plugins > Installed plugins. If it has been activated correctly, plugin control panel is available in the tab **Tab Manager** on WordPress dashboard.

Description

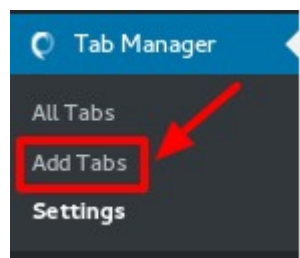

With the custom tabs plugin you can add more tabs to your product to give a better picture of your products on your Ecommerce store.

Back Save

The screenshot shows the 'Create New Custom Tab' form. It has a title 'Create New Custom Tab For All Product's' and a subtitle 'add the label'. The form has three main sections: 'Custom Tab Label (required)' with the value 'Features', 'Custom Tab Content (required)' with a rich text editor containing two paragraphs of text, and 'Priority of Tab (required)' with a dropdown menu set to '3'. There are red arrows pointing to each of these sections with labels: 'add the label' points to the label field, 'write the tab content' points to the content editor, and 'set priority of tab from here' points to the priority dropdown. At the bottom, there are 'Back' and 'Save' buttons, with a red arrow pointing to the 'Save' button labeled 'save this'. A note at the bottom says 'The plugin tabs are displayed after the WooCommerce Tabs'.
